

Missouri E-START Site/Facility Summary

This is an advisory about environmental conditions that could affect use of the property identified on the map below. Any property use limitations are intended to ensure safe use of the property after the cleanup of contamination in the soil and/or groundwater. This advisory identifies the governmental agencies that oversaw the sites cleanup, and provides contacts for further information.

Although this map and its underlying data sets have been compiled by the Missouri Department of Natural Resources (Department), no warranty, expressed or implied, is made by the Department as to the accuracy of the data and related materials. The act of distribution shall not constitute any such warranty, and no responsibility is assumed by the Department in the use of these data or related materials.

SITE MAP

 COMPLETED
 SITE AREA - Approximate area that comprises the site or permitted facility

Site/Facility Name Carter-Waters Corporation-Warson Road

Address 1441 North Warson Road

City St. Louis

Zip 63132-1626

County St. Louis

Site Status Completed

Site Background/History This site has been developed since 1937 and owned by Carter-Waters since 1993. Currently, the site is used for construction materials distribution, showrooms and warehousing. Historically, the site has been used for diesel engine repair and plastic injection molding.

Site Cleanup Summary Site Investigations showed levels of volatile organic compounds (VOCs) above the Missouri Risk-Based Corrective Action (MRBCA) Default Target Levels (DTLs) in soil and groundwater at the site. Further soil sampling, groundwater monitoring and a Risk Assessment were conducted. The results of those investigations found that levels of contaminants were below the MRBCA target levels for residential use.
